WELCOME

KEN-NEXT VENTURES NIG. LTD is a high profile technology driven and customer oriented company. We are poised to deliver solutions to our client's technical problems and provide project management services as needed.

Our culture is one of focused, innovative and entrepreneurial management, which brings effective services to our customers, through communicative teamwork, combined with efficient business and information technology systems.

We are duly registered with the various regulatory bodies in Nigeria including the Directorate of Petroleum Resources (DPR) and major oil companies operating in Nigeria. Ken-Next Ventures is based in Port Harcourt - Nigeria with plan to open branches in, Abuja and Lagos.

All logistics and supplier contact activities are coordinated from our Port Harcourt office. The Port Harcourt office also serves as a base for easier access to original equipment manufacturers and our technical partners.

ABOUT US

KEN-NEXT VENTURES NIG. LTD. is an indigenous company, incorporated on the 17th of February, 2011; to supply Engineering equipment/tools, Iron & Steel materials and industrial consumables to diverse sectors in Nigeria. Our corporate head office is situated in Port-Harcourt, south-south region, the hub of Oil and Gas in Nigeria, where we break barriers to give our clients the best services.

Since 2018, Ken-Next Ventures has diversified to become a foremost provider of comprehensive engineering and logistics solutions in the Oil and Gas, Construction and Manufacturing Industries.

We are focused on engineering solutions that improve production efficiency, operational reliability/safety and asset protection.

Ken-Next Ventures Nig Ltd has a reputation for setting standards in operational integrity and engineering excellence. As we take pride in the superiority we always aim to attain through quality.

Our core values, quality management system and customer satisfaction policy are our propeller in rendering services to our client; as we are ISO certified, and constantly updating our licenses to ensure conformity to international standardization thereby gaining the confidence of our clients.

At Ken-Next Ventures Nig Ltd, our priority is value optimization through seamless delivery of quality products and services.

OUR PHILOSOPHY

OUR VISION

To become the foremost indigenous engineering firm in the Oil & Gas, Construction and Manufacturing sectors through seamless provision of innovative products and services; while meeting our client's economic expectation and quality standards.

OUR MISSION

To build a formidable crop of professionals derived from the breadth and depth of intellectual capital, to design and deliver projects with unparalleled speed and accuracy while maintaining global benchmark.

OUR COMMITMENT

We are committed to consistently providing our clients with the best possible Engineering and Oil and Gas Support Services, while ensuring that all our work is carried out safely, within the allocated time, all the time. Summarily we tactically provide Engineering Support Service.

CORE VALUES

Our portfolio of service and products is underpinned by our commitment to our guiding principles of

- ✓ PROFESSIONALISM
- ✓ TEAMWORK
- ✓ QUALITY
- ✓ INTEGRITY AND
- ✓ INNOVATION.

These core values guide our decisions and influence our service delivery.

OUR TEAM

Be a Part of the Innovative Specialist Team

Diversity is important to us and we provide a work environment that treats all employees with respect. Our diverse values and perspectives encourages individual growth.

Ken-Next Venture are carried out using highly qualified and experienced personnel who have worked at various operations around the world, gaining valuable experience from each location and transferring the knowledge and the lessons learned to provide a holistic approach to our services.

Our principal engineers cover all key disciplines and are considered leading industry experts with extensive experience and qualifications in their relevant fields. We regularly chair or present at educational conferences and seminars, we are proud to enhance and develop the markets we serve.

We deliver comprehensive and high quality services which bridge the gaps left by our competitors and we consistently perform above our clients' expectations.

We are

- Independent & Impartial
- Dedicated
- Responsible
- Informed
- Accredited
- Experts
- Proactive
- Innovative
- Flexible
- Efficient

OUR HSE PRINCIPLE

Health, Safety and Environment (HSE) is a fundamental component of Ken-Next Ventures business principles and corporate culture. The company believes that effective management of HSE affairs not only protects employees, visitors, clients and the environment but also contributes to the successful deployment of our services, as we work with our clients to understand and develop controls for project safety risks.

We have a long-standing commitment to the highest standards for health and safety as well as for the protection of the environment in our host communities in which we live and work we operate in an environmentally responsible manner and champion environmental initiatives for sustainable operations

We are proud to announce that our company has achieved a significant milestone by becoming ISO Quality-Safety-Environment-Certified. This triple certification demonstrates our unwavering commitment to excellence, sustainability, and the well-being of our employees, customers, and the environment.

Our **ISO 9001:2015** certification ensures that our quality management system meets the highest standards, enabling us to deliver exceptional products and services that meet our customers' needs and exceed their expectations.

while **ISO 45001:2018** certification demonstrates our dedication to providing a safe and healthy work environment, minimizing risks and ensuring the well-being of our employees and all stakeholders.

Lastly, our **ISO 14001:2015** certification showcases our commitment to environmental responsibility, sustainable practices, and minimizing our ecological footprint.

This triple certification is a testament to our company's dedication to continuous improvement, customer satisfaction, and social responsibility. We are committed to maintaining these high standards and continually improving our processes to ensure a brighter future for all.

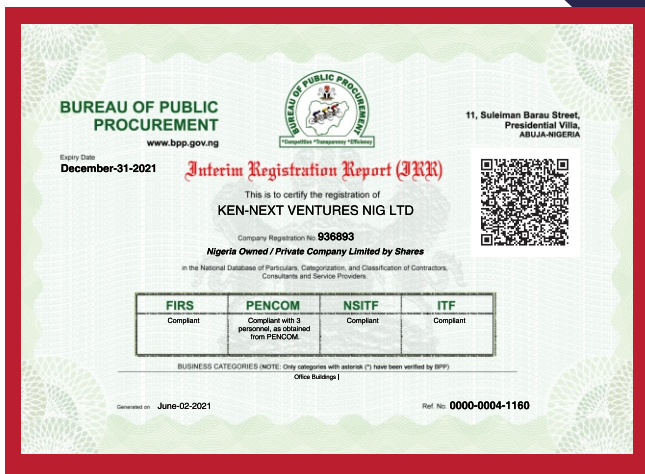

OUR CLIENTS

We are proud to offer high quality range of support services to our multi-national clients, which include major international oil companies and engineering, procurement and construction contractors. Meet some of our very satisfied clients!

WELL SERVICES

Ken-Next Ventures has earned herself a degree of excellence in the field of oil and gas well services. With our team of experts, we carry out periodic inspection, function testing, repair and services for major oil producing companies. These services include;

Our Well Services Include:

✓ WELL STIMULATION

✓ COILED TUBING AND

✓ NITROGEN SERVICES

✓ FILTRATION SERVICES

✓ COMPLETION SERVICES

✓ OIL AND GAS MANIFOLD SERVICES

✓ GRAVEL PACKING SERVICES

✓ WELL CRISIS MANAGEMENT SERVICES

✓ DRILLING / PRODUCTION CHEMICALS

✓ WELL KILLING

✓ WELL SECURING

WELL SERVICES...

- ✔ WIRELINE AND SLICKLINE SERVICES
- ✔ CEMENTING SERVICES
- ✔ OIL AND GAS MANIFOLD SERVICES

WELLHEAD MAINTENANCE SERVICES

Ken-Next Ventures has earned herself a degree of excellence in the field of wellhead maintenance services. With our team of experts, we carry out periodic inspection, function testing, repair and wellhead intervention services for major oil producing companies.

A primary function of an oil and gas wellhead is to provide pressure seal or shut-in point between the casing/tubing and surface piping/facilities, among others.

The various types of valves and actuators of the Xmas tree have to be in the best operational state to ensure they are working properly and seamlessly for efficient productivity.

Ken-Next Ventures has over the year metamorphosed into a leader in wellhead Installation, maintenance and services, thereby carving out a niche for itself.

We have partnership with Original Equipment Manufacturers (O.E.M), supplies and installs different types of wellheads, to clients' specifications, for long term, trouble-free production.

WELLHEAD MAINTENANCE SERVICES...

PRODUCTS / SERVICES OFFERED

- ✓ FIRST AND SECOND LINE WELLHEAD MAINTENANCE, ROUTINE AND NON-ROUTINE.
- ✓ REPAIR, REFURBISHMENT AND INSTALLATION OF WELLHEAD EQUIPMENT AND ACCESSORIES.
- ✓ SUPPLY, INSTALLATION AND MAINTENANCE OF OEM WELLHEAD EQUIPMENT AND ACCESSORIES.
- ✓ VALVES AND WELL-MANIFOLDS INSTALLATION AND MAINTENANCE
- ✓ SUPPLY OF VALVES (GATE, BALL, GLOBE, BUTTERFLY, PLUG).
- ✓ WELLHEAD COMPLETION
- ✓ SUPPLY, MAINTENANCE, REPAIR OF PNEUMATIC AND HYDRAULIC ACTUATORS.
- ✓ DESIGN, FABRICATION, CONSTRUCTION OF WELLHEAD CONTROL PANELS AND EMERGENCY SHUTDOWN SYSTEM(ESD).
- ✓ SUPPLY OF WELLHEADS 5,000PSI AND 10,000PSI SERIES.

PIPELINE AND PUMPING SERVICES

There are thousands of miles of oil, natural gas, and refined products pipelines, transporting products from onshore and offshore oilfields to processing plants and refineries and ultimately to the end users. Proper maintenance of these pipelines is critical to safe and efficient operations.

Services Include:

- ✓ PIPELINE PIGGING
- ✓ PIPELINE CLEANING
- ✓ FLUSHING, GAUGING AND
- ✓ INTELLIGENT PIGGING

- ✓ PIPELINE PRESSURE TESTING (HYDRO TESTING)

- ✓ PIPELINE NITROGEN PACKING/INERTING

- ✓ PIPELINE DE-WATERING AND DRYING

- ✓ PIPELINE DE-OILING

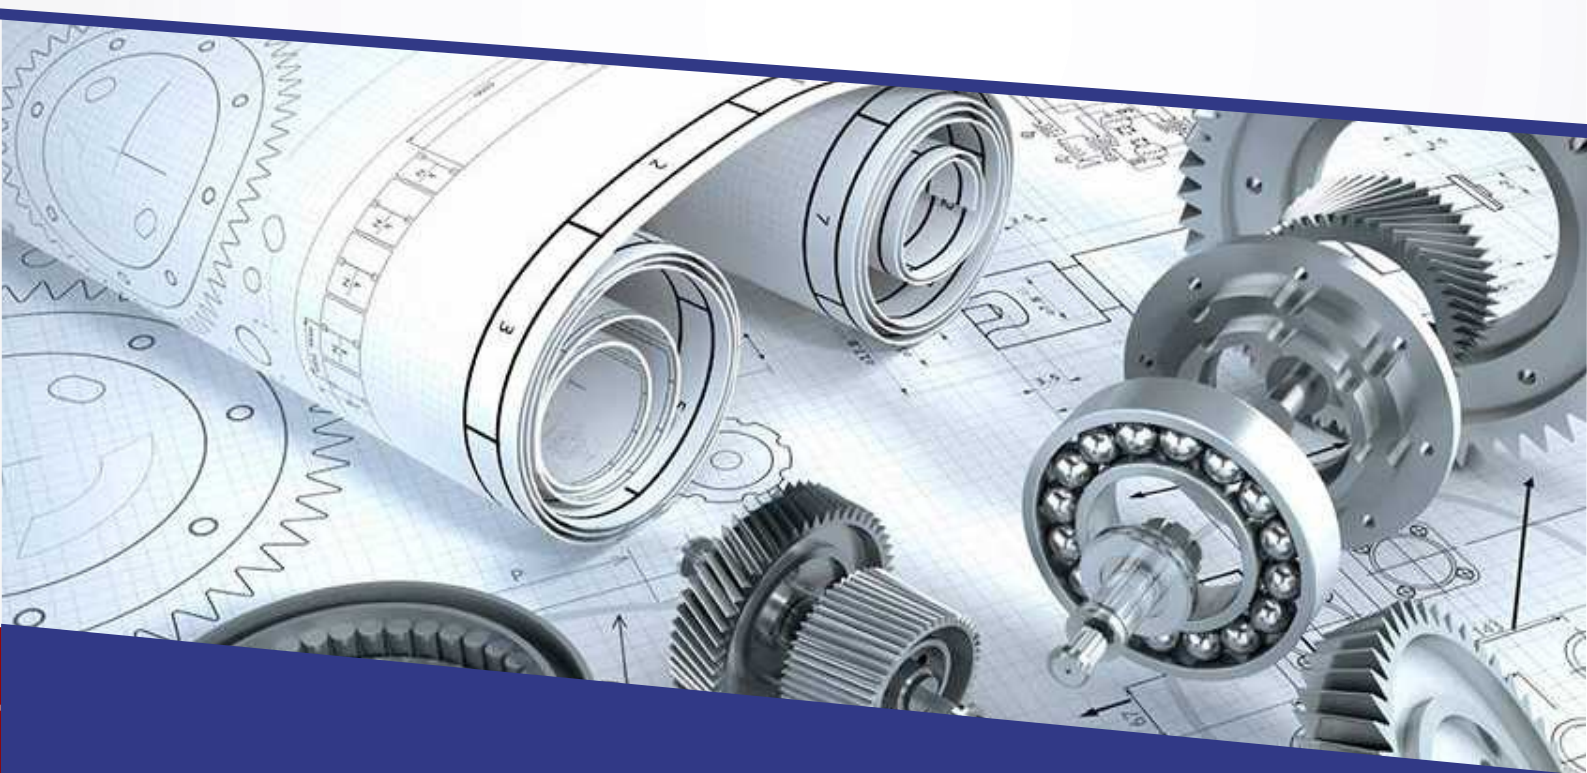

ENGINEERING AND CONSTRUCTION SERVICES

We deliver a range of services within and outside oil and gas industry and we are dedicated to the efficient execution of such services.

- EPCI
- FACILITY REVAMPING
- FABRICATION
- BLASTING AND COATING
- SCAFFOLDING

We are proud to offer high quality range of support services to our multi-national clients, which include major international oil companies, and engineering, procurement and construction contractors.

ENGINEERING, PROCUREMENT, CONSTRUCTION, INSTALLATION (EPCI).

We perform various EPCI (Engineering, Procurement, Construction and Installation) projects and can provide a full turnkey package including operations and maintenance of the new process module or unit. We also support multinational corporations and process licensors to provide specific modules and processes due to our extensive range of in-region fabrication, installation and pre-commissioning capabilities.

FABRICATION SERVICES

Ken-Next Ventures fabrication services handle multiple, fast-track projects for offshore and onshore modules. We fabricate plate and structural steel, piping and complex modular assemblies. Our diverse state-of-the-art facilities powered by our expert craftsmen gives you the best single source for your Custom Fabrication or Structural Steel project.

Our Fabrication Services Include:

- ✔ Piping Fabrication
- ✔ Structural Steel Fabrication
- ✔ Sheet Metal Fabrication
- ✔ Skid & Modular Fabrication
- ✔ CNC Automated Material Processing
- ✔ Vessel/Tank Fabrication
- ✔ On-site Industrial Services

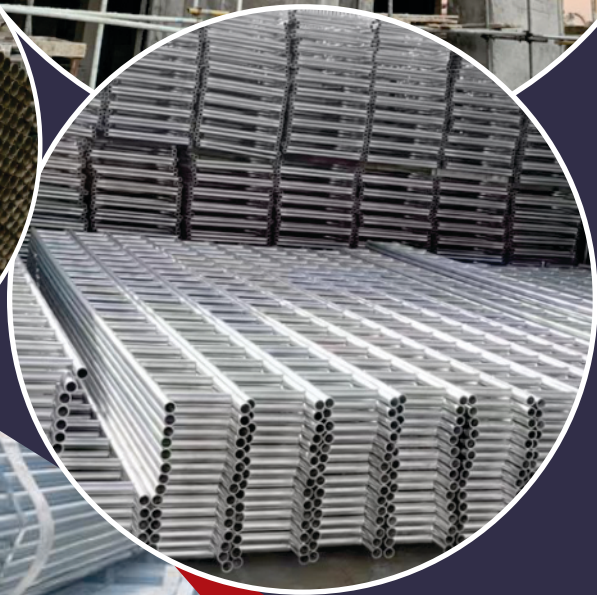

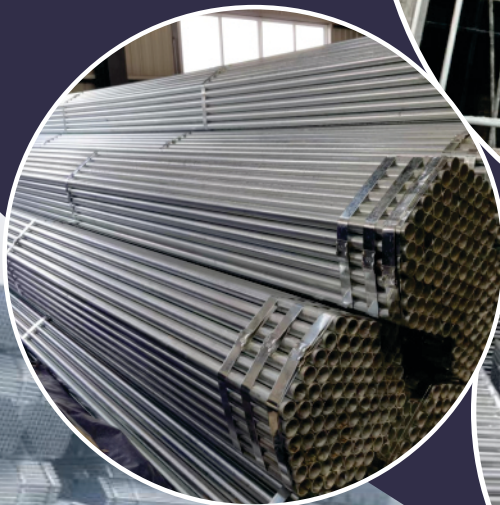

SCAFFOLDING SERVICES

At Ken-next, scaffolding work is carried out by properly supervised teams of experts who consistently achieve reliable, efficient, innovative, and safe loading, delivery, erection, dismantling and collection of top class scaffolding to and from all types of sites.

We engage in various methods of scaffolding;

- ✓ Traditional Scaffolding
- ✓ System Scaffolding
- ✓ Formwork Services
- ✓ Light access equipment
- ✓ Scaffolding towers and access platform
- ✓ Tooling & safety equipment's

FACILITY REVAMPING

Revamping, rejuvenating and retrofitting existing facilities presents a constant challenge for businesses intent on improving the scale and efficiency of their operations.

Whether you are planning to increase capacity, add a new process or simply modernize your plant, it is often necessary to team up with a reliable local partner who can support with all phases of the project from engineering through to commissioning and ongoing maintenance.

Our technical department is charged with the provision of innovative and cost effective solutions; to revamp, upgrade and modify your industrial facilities, ranging from manufacturing plants to storage facilities. We maintain and modify facilities with innovative ideas and technology to optimize productivity.

BLASTING AND COATING

Ken-Next provides various types of blasting and painting services to the Oil and Gas Industry, including Ultra High Pressure (UHP), Hydro Blasting and more traditional grit and steel ball blasting. At Ken-Next we understand that surface preparation is essential for satisfactory performance of any paint system.

Our highly skilled blasters and painters are committed to provide the best solutions, best methods, best quality and best value in areas such as: Shipyards, LNG Plants, Fabrication Facilities, Offshore and Onshore Projects and more.

Blasting and Painting Services:

- ✓ Manual paint and brush application
- ✓ (Air) Less paint techniques
- ✓ Specialist coating applications
- ✓ Manual dry grit blasting
- ✓ Spot blast surface preparations
- ✓ Automated dust free blasting with encapsulation
- ✓ Manual hydro blasting UHP blasting
- ✓ Mechanical preparation

PROJECT MANAGEMENT

We provide professional project management services to our clients, designed to ensure the successful implementation and execution of all initiatives.

We are experts in leadership and stakeholder management as well as the planning, controlling and delivery of projects. It is our job to take the stress out of project management on your behalf, ensuring that everything is done efficiently and effectively from start to finish within agreed timeframes and cost. With a highly professional skilled and experienced team and an outlook based firmly on industry best practices, we assist with projects of all sizes and complexities.

Our services rendered includes;

- **QUALITY ASSURANCE & QUALITY CONTROL (QA/QC) INSPECTION SERVICES**
- **RISK ASSESSMENT / MANAGEMENT SERVICES**
- **COST CONTROL & RESOURCE ALLOCATION SERVICES**
- **PROJECT PORTFOLIO MANAGEMENT SERVICES**

QUALITY ASSURANCE & QUALITY CONTROL (QA/QC) INSPECTION SERVICES

Ken-Next Venture Nig. Ltd. has a worldwide network of technically competent and highly skilled, multi-disciplinary Auditors/Inspectors and Quality Surveillance Engineers who are capable of monitoring, advising and reporting on a wide range of activities involved in the oil and gas, construction and production work.

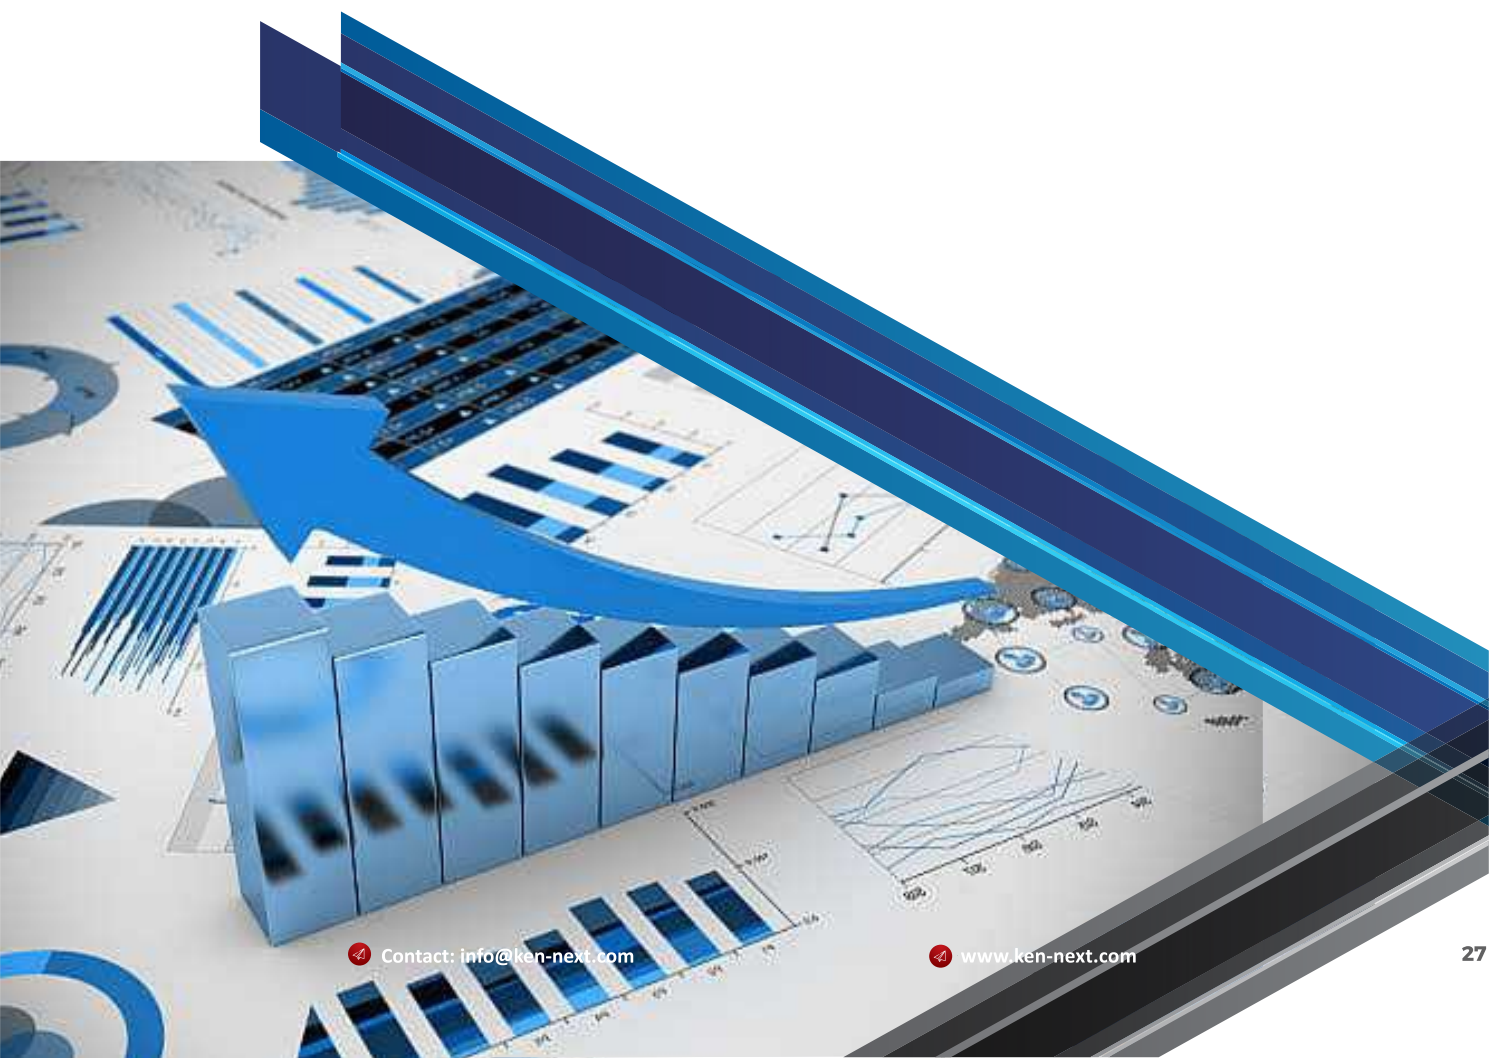

Services Overview;

- ✓ Commissioning
- ✓ Facility inspection
- ✓ Premob/Equipment Inspection
- ✓ Asset and Mechanical Integrity
- ✓ Non-Destructive Testing (NDT)

COST CONTROL & RESOURCE ALLOCATION SERVICES

Ken-Next engages certified experts and innovative technology to support clients, in cost control and resource allocation. With the adoption of up-to-date analysis methods and technology, we identify, schedule and assign available resources to tasks and projects, enabling our clients to attain project/company objectives effectively.

RISK ASSESSMENT / MANAGEMENT SERVICES

Ken-Next has established a tested and trusted risk evaluation team and method that helps our clients to identify and manage/mitigate risk factors using most recent HAZID/HAZOP techniques. Our risk evaluation and management team process works perfectly in the Construction/Manufacturing/Oil and Gas industries.

Services Overview;

Assess Risk and Strategy

Our RMS Consulting Services team leverages decades of experience to assess your current risk position, identify the best ways to use catastrophe analytics within your operations, and develop a plan to operationalize efficient business processes.

We deliver objective, quantifiable, and actionable insights across a range of projects.

- Bespoke modeling, including climate change, complex risks, mortgage default, and customized hazard/vulnerability analyses
- Risk transfer modeling and calculation agent services to the ILS market
- Business process maturity and workflow optimization assessments

PROJECT PORTFOLIO MANAGEMENT SERVICES

We make use of futuristic resource management software to analyse and manage projects and programs for our clients. While considering customer's project schedule and resources; Ken-Next guarantees best outcome and help clients attain the optimal point on their production possibility frontier.

Services Overview;

Portfolio management:

Continuously managing the overall portfolio and periodically reassessing and governing the portfolio.

Demand management:

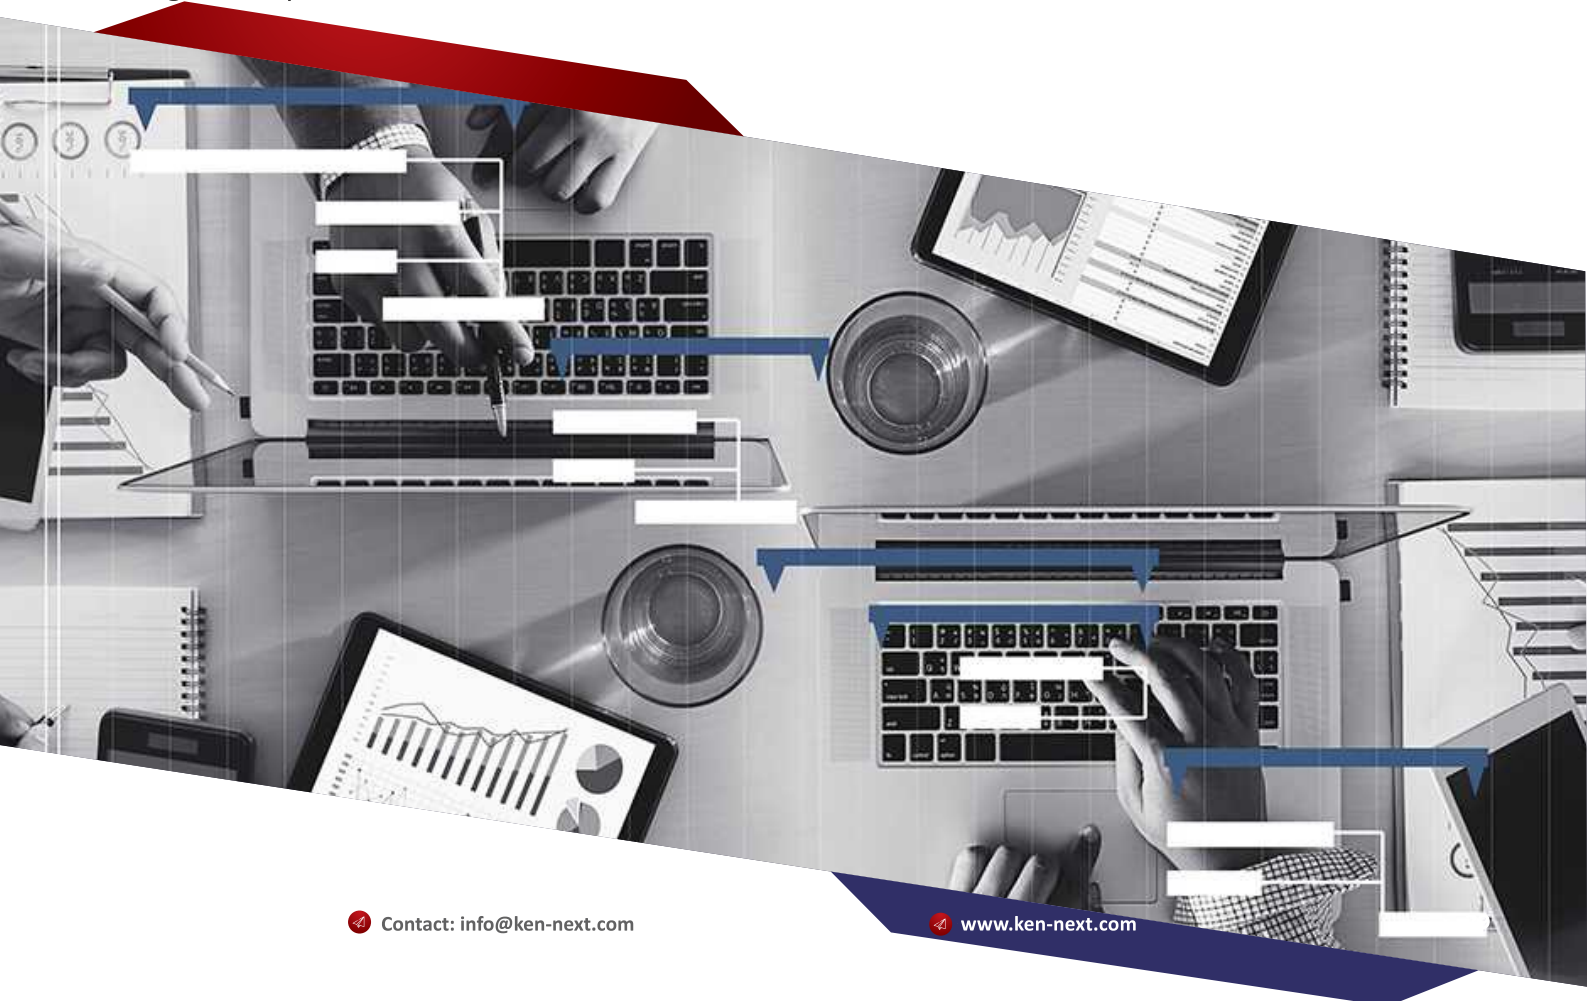

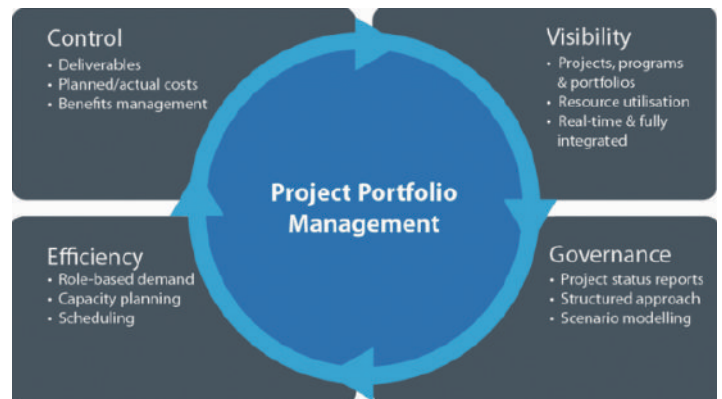

Collecting, evaluating, prioritizing, and approving demand, as well as winnowing out nonaligned project or solution ideas.

Project/solution management:

Monitoring and controlling project and product progress, as well as resources, risks, issues, financials, scope, and quality.

Business outcome management:

Measuring the outcomes of project and solution delivery and comparing those outcomes to the business case promises made in the demand management cycle.

PROCUREMENT AND SUPPLY CHAIN MANAGEMENT

We offer a wide range of procurement services to support our clients projects and meet our client needs. Our procurement team utilizes strategic sourcing and strong negotiation skills to source and deliver supplies at the most competitive rates at the shortest possible time.

We have excellent relationships with local vendors as well as renowned manufacturers and suppliers in the UK, across Europe, USA, Middle East and Asia and are able to supply equipment to meet specification, on time and within budget. We are also sole agents and distributors to some Original Equipment Manufacturers (OEM) in the world.

Our Products rendered includes;

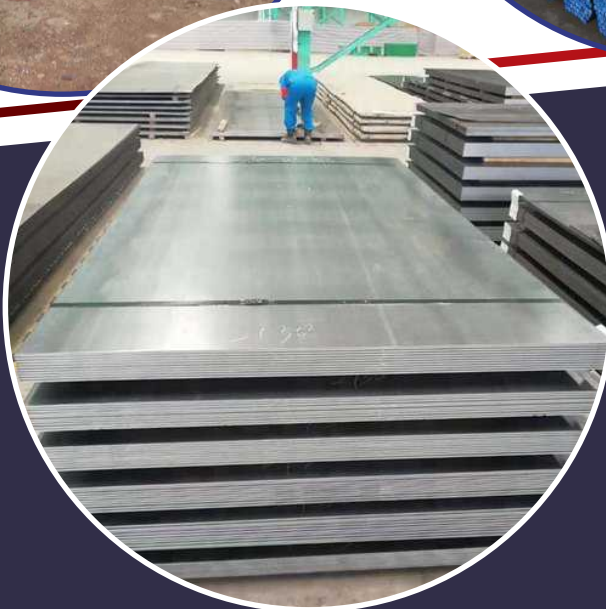

- STEEL PROCUREMENT
- OIL AND GAS EQUIPMENT
- INDUSTRIAL EQUIPMENT
- CHEMICALS

LINE PIPES, STRUCTURAL STEEL AND OCTG PROCUREMENT

We supply line pipes of various diameter. Structural Steel such as Beams, Plates, Tubulars and Casings. We are in partnership with a number of internationally recognized and approved mills. We supply large bore welded pipe in ERW, LSAW, HFI and Spiral DSAW, in varying qualities and grades as high as X80.

- **Seamless Line Pipes**
- **Welded Line Pipes (including ERW, DSAW, LSAW & HFI)**
- **Drill Pipes**
- **Seamless OCTG**
- **Premium Connections**
- **Structural Steel**
- **Beams**
- **Plates**
- **Stainless Steel Pipes**
- **Tubulars and Casings**
- **Fittings & Flanges (including Elbows, Tees, Caps & Reducers)**

INDUSTRIAL EQUIPMENT PROCUREMENT

Ken-Next Ventures provides an extensive range of industrial equipment of international standard for our clients.

✓ Wellheads, Christmas Trees & Accessories

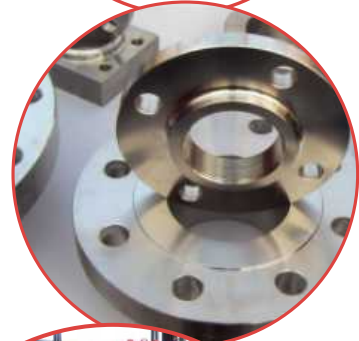

We offers a variety of Christmas Trees, wellheads of various types and sizes in standard versions which includes:

Solid block, brine leaching, selective underground gas selective, circulation head for brine geothermal, specially equipped with choke for gas flow control, control with subsurface safety valve control-line Injection line.

✓ Valves

Ken-Next is positioned as a major supplier of all types of valves for all major projects procurement needs covering ball valves, gate valves, SDV, check valves, butterfly valves, globe valve, cryogenic valves, custom made valves for oil and gas.

✓ Pump and Compressors

High Pressure Reciprocating Pumps
High-speed centrifugal pumps
Dosing pumps
High-speed compressors

✓ Fittings/Flanges

Butt-weld Elbows, Tees, Reducers, Caps to ASME B16.9 and 16.28 Forged Fittings to ASME B16.11 Weld Neck, Long Weld Neck, Socket Weld, Blind, Slip On, Orifice Flanges in all pressure ratings, with Raised Face, Flat Face or Ring Type Joint as required to ASME B16.5 & 16.47 Specifications: ASTM, BS, NF, EN/DIN and special customer requirements Materials: Carbon/Low temperature, Alloy, Stainless, Copper-nickel alloys.

INDUSTRIAL EQUIPMENT PROCUREMENT

Ken-Next Ventures provides an extensive range of industrial equipment of international standard for our clients.

CHEMICAL PROCUREMENT

We work with some of leading brands in the chemical industry to offer wide range of high quality chemicals to our clients. Our range is appreciated for being highly effective, pure and accurate in composition. With the help of our local and international partners, we can assure you of the best quality products that meet your need. We are driven by innovation, wealth of experience in the industry and by our quest to exceed the expectation of our clients in our products and service delivery.

Our chemical range include;

- ✓ **General purpose Chemical**
- ✓ **Oil field and Production Chemicals**
- ✓ **Construction Chemicals**
- ✓ **Water Treatment Chemicals**
- ✓ **Corrosion Inhibitors**

PROJECTS EXECUTED

Over the past years, Ken-Next Ventures teams has successfully executed numerous oil and gas service jobs to our various clients fulfillment and satisfaction in Nigeria and abroad, below are pictorial evidence of some site operations displays from projects carried out.

Project Management and QA/QC Services For EPCIC Of 1x45MMSCFD High Pressure Gas Compressor Package; for Oredo Flowstation 3 (FST-3) in OML 111

PROJECTS EXECUTED...

- Maintenance Painting, Surface Stabilization And Scarp Relocation At Ogharefe Lact Unit In OML 111.

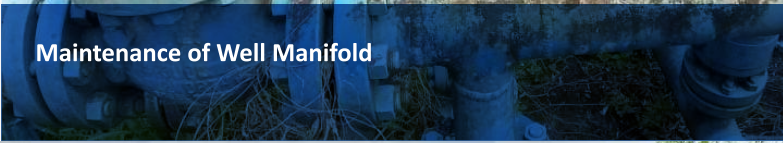

Maintenance Painting, Surface Stabilization And Scarp Relocation At Ogharefe Lact Unit In OML 111

PROJECTS EXECUTED...

Maintenance of Well Manifold

PROJECTS EXECUTED...

Procurement and Installation of Anti-Theft locks on all Abura Wellhead & Flow-meters in Abura Field in OML65
